- 

## Task 2: User Stories

Synthesizing the empathy mapped data yielded crucial design criteria. Structured according to functional needs, they directly dictate core capabilities:

### US1. ([Addressing Constraint]):

As a [User Role], I want to [Action] utilizing [Method], so that I [Benefit/Outcome].

### US2. ([Addressing Constraint]):

As a [User Role], I want to [Action], so that I [Benefit/Outcome].

### US3. ([Addressing Constraint]):

As a [User Role], I want to [Action], so that I [Benefit/Outcome].
